Fast, Non-Drowsy 24-Hour Allergy Relief

Allegra® (Fexofenadine Hydrochloride Tablets)

Introduction

Allegra® 180 mg contains Fexofenadine Hydrochloride, a second-generation antihistamine that provides effective relief from seasonal allergy symptoms without causing significant drowsiness. It offers up to 24-hour protection, helping you stay comfortable throughout the day.

How Allegra Works

Fexofenadine Hydrochloride works by selectively blocking histamine H1 receptors, preventing histamine from triggering allergic reactions. This helps reduce common allergy symptoms while allowing you to remain alert and active.

How It Helps

- ✔️ Blocks allergy-causing histamine
- ✔️ Relieves sneezing and runny nose
- ✔️ Reduces itchy, watery eyes
- ✔️ Controls allergic rhinitis symptoms
- ✔️ Maintains daily productivity with a non-drowsy effect

Benefits of Allegra 180 mg

- Fast relief from seasonal allergy symptoms
- Provides up to 24 hours of symptom control
- Non-drowsy formula for daytime use
- Helps relieve sneezing and nasal irritation
- Reduces itchy, watery eyes
- Helps manage allergic rhinitis
- Easy once-daily oral tablet
